

Dear McLane Approved Supplier,

We are excited to introduce our new partnership with Share-ify. Share-ify is an online document sharing service that will allow us to streamline communication and manage required export documentation all in one place. All documents shared with the McLane Food Safety and Quality Assurance Team via the Share-ify platform are considered confidential.

If you are currently a Share-ify subscriber and you have already uploaded data, you can easily share it with us. If you have an active subscription and need assistance with uploading the requested information, please reach out to the Share-ify Customer Success Team at service@share-ify.com. If you are a new subscriber to Share-ify, they will be reaching out to you to obtain a subscription. We need to have this information set up by August 26, 2024.

Also, as a courtesy and to ensure that our suppliers can meet the required deadline, a member of the Share-ify Customer Success Team may be in touch with you to assist with the onboarding process. You may have to request your IT department to "whitelist" Share-ify's domain (share-ify.com) to receive their notifications and emails.

Thank you for your continued support as a partner to McLane and our customers by complying with this important requirement. If you have any questions, please contact Deana Rosenhamer at Deana.Rosenhamer@McLaneFS.com or Sara Mitchell at mclanefreshqa@mclaneco.com.

Regards,

Deana Rosenhamer

Deana Rosenhamer

Sr Manager, Export
